Owing to the fact that the spring meeting of the School Board was not held until two weeks after the March town meeting, and that the clerk of the same did not report to the Town Clerk the action then taken till after the tax assessment had been laid and the returns made to the State Treasurer, it was impossible to raise by taxation this year the amount voted for books, seats, etc. To meet this deficiency the Selectmen turned over to the credit of the Board of Education all moneys coming from the State on account of Savings Bank, Railroad, Literary Fund and dividend on insurance. This disposition of the funds, which it was intended should be used to meet other indebtedness, of course has caused a large deficiency in the balance for the year.

We herewith submit the report of the town of Berlin for the year ending March 1, 1892, respectfully calling your attention to the treasurer's report for the financial standing of the town.

WILLIAM LANDRY,	
WILSON A. PINGREE,	

Report of Board of Health.

BERLIN, N. H., March 1, 1892.

To the People of Berlin:—

During the past year the town has suffered to an unusual degree from diphtheria and fevers; the latter being malarial in nature and variously designated as Typhoid and Typhus Malarial Typhoid, the latter locally known as the "Berlin" fever. Three (3) cases only of scarlet fever have been reported to the Board during the past year.

The Board of Health have used all means in their power to prevent the spread of contagious diseases, by quarantining the premises where such cases were known to exist as soon as reported to them and by fumigating and disinfecting the same.

The urgent need of increased sewerage for the benefit of the general health necessitated the extension of some sewers and the building of some new ones.

The decided improvement in health and comfort in the districts where these have been laid shows the action was wise, and is a convincing proof that much more should be done in this direction at the earliest possible moment, for the advantage of the general health.

The sewer on Mason street, put in some years since, is, to-day, insufficient for the greatly increased and rapidly growing demands upon it, and should be relaid and enlarged during the coming year.

The twelve-inch sewer laid on Main street during last summer should be extended so as to include the sewer-

age of all buildings on Main street to a point south far enough to connect with the main sewer begun by the Board of 1890, which should be completed as soon as possible.

The necessity of an increased and improved system of sewerage for the districts known as "Norwegian village" (Berlin Mills), "St. Giles" and Western avenue cannot too strongly be impressed upon the minds of the people.

The necessity of prompt action in these matters is emphasized by recalling the unusually bad state of the general health that prevailed here during the past fall and winter as shown by the death rate.

Annexed is a statement of the expenses of this department for the current year :
